Abstract

This document provides an outline and LaTeX template for report formatting in Senior Design. This document does not teach you what to include, or how to use LaTeX. Assumes a workable level of LaTeX proficiency.

Contents

1 Introduction

A general section looks like this. There is usually a blurb introducing the top-level section here.

1.1 Subsection 1

Then you go into a subsection. In your text you can cite things like this [1], and reference other section such as appendices like Appendix A.

1.1.1 Sub-subsection 1

Sometimes you will make use of subsubsections. Note: when you include figures and tables, I suggest using the [htb!] modifier.

References

Appendix A   Example Appendix

An appendix can go here! Make sure you use the `\label{appendix:a}` above so that you can reference this section in your document.
